

I listen to K-LOVE on 94.3 FM through Elgin, IL. I believe that the music inspires me to feel love, compassion, and fellowship with my Lord and Savior, and with my neighbors. I believe it helps me focus on positive ideas, and helps me take my mind off of negative events happening around the world. I've found it also generates conversation with others regarding forgiving people. I love that K-LOVE links our local community with the rest of the nation through song and news. It helps my family remember the importance of our neighbors, whether here in IL, or in CA. It helps me remember that other people care for me and share the same struggles that I do. I cannot imagine a better source of service to the public than a 24 hour radio station with K-LOVE's format.  
Thank you for considering my opinion.
